# Successful Due Diligence

## COURSE PROGRAMME

**Effective Due Diligence** is a one day intensive course which addresses all the essential aspects of running a due diligence programme as part of the in or out licensing process.

The first part of the course addresses the logistics and planning process required for running a successful due diligence programme. This includes :

- selecting the team, identifying team roles
- planning the timetable
- defining the objective
- deploying key decision points

The second part of the course considers each of the main disciplines included in due diligence, including :

- Scientific and regulatory due diligence
- Technical due diligence
- Intellectual Property Rights
- Legal and Corporate due diligence
- Commercial and marketing issues
- Financial issues

Practical examples and case studies are interspersed throughout the course to reinforce the active learning.

A more detailed programme is available on our website :
